RICOZ INNOVATION • INVESTOR PRESENTATION 2026

RicozBooks

The Financial Operating Platform for Growing Multi-Entity Businesses

Complete Double-Entry Ledger, Indian GST Return Suite, and Four-Eyes Financial Governance.

✓ 22 MODULES FULLY BUILT

✓ 48/48 TEST SUITE PASSING

✓ INDIAN GSTN & E-INVOICING READY

✓ LIVE ON RENDER CLOUD

01 — THE PROBLEM

Financial Complexity Stalls Growing Businesses

FRAGMENTED OPERATIONS

Disconnected Workflows

Growing businesses juggle multiple legal entities, vendors, customers, and bank accounts across spreadsheets and basic billing apps, generating blind spots and massive reconciliation lag.

CONTROL & GOVERNANCE FAILURES

Zero Segregation of Duties

Entry-level software allows any user to post, edit, or delete transactions retroactively. There is no Maker-Checker review workflow, leading to audit vulnerabilities, fraud risks, and tax penalties.

SCALING FRICTION

Trapped Between Extremes

Companies outgrow single-user tools like Tally desktop, but cannot afford multi-crore enterprise ERPs (SAP/NetSuite) that take 9+ months to deploy and lack native Indian GST return automation.

💡 **Market Imperative: Indian mid-market enterprises need double-entry mathematical precision combined with enterprise governance, without legacy ERP complexity.**

02 — OUR SOLUTION

Meet RicozBooks — The Financial Operating Engine

Strict Double-Entry General Ledger

Mathematical Debit = Credit invariant enforced at database layer. Zero balance drift guaranteed.

Native Multi-Entity & Multi-Currency

Central organization umbrella managing isolated subsidiaries, fiscal calendars, and foreign exchange rates (INR, USD, EUR, GBP).

Four-Eyes Governance & Period Lock

Mandatory Maker-Checker review queues and tamper-proof fiscal period close freezes with signed audit trails.

Automated Indian GST Suite

Auto-generation of GSTR-1 & 3B return schedules, B2B/B2C summaries, and Input Tax Credit (ITC) checks.

LIVE PRODUCT WORKBENCH

Ricoz India Pvt Ltd (INR) • Status: Active & Balanced

- **General Ledger:** Voucher #JE-2026-0042 verified (Variance = ₹0.00)
- **Tax Invoice Engine:** #INV-2026-0881 posted to AR 1200 with 18% GST
- **GST Return Center:** GSTR-1 B2B supplies compiled (₹14.80 Lakhs)
- **Perpetual Inventory:** FIFO stock valuation synced to GL 1300
- **Period Close Manager:** August 2026 permanently locked against edits

03 — CORE PRODUCT

One Unified Platform for All Financial Operations (22 Modules Built)

BUILT & LIVE

Entity Management

- Self-serve registration
- Isolated subsidiary ledgers
- Cryptographic invitations
- Multi-currency FX matrix

BUILT & LIVE

Double-Entry Core

- Hierarchical Chart of Accounts
- Multi-line journal vouchers
- Debit = Credit database lock
- Immutable audit logs

BUILT & LIVE

Sales & Purchases

- Estimates to Tax Invoices
- Sales Orders & Credit Notes
- Purchase Orders to Bills
- 1-Click document conversion

BUILT & LIVE

Tax & Reporting

- GSTR-1 & 3B return engine
- FIFO inventory & COGS sync
- Bank OFX/CSV reconciliation
- Real-time Balance Sheet & P&L

All 22 financial modules are fully functional, integrated, and verified with 48/48 passing backend tests.

04 — PRODUCT SHOWCASE

RicozBooks in Action — Enterprise Core

01 • EXECUTIVE DASHBOARD

Real-Time Financial Health

Live KPI tracking: Revenue, Receivables, Payables, Net Cashflow, and operating account balances across entities.

02 • JOURNAL ENGINE

Multi-Line Vouchers

Dynamic line creation, real-time debit-credit balance calculations, line-level narrations, and reference document linking.

03 • SALES & AP HUB

Full Commercial Lifecycle

Sub-tabs for Invoices, Estimates, Orders, Credit Notes, Bills, POs, and Debit Notes with automated ledger postings.

04 • GST TAX ENGINE

Indian GST Return Suite

GSTR-1, GSTR-3B, B2B/B2C schedules, automated IGST vs CGST+SGST determination, and Input Tax Credit (ITC) checks.

05 • BANK RECONCILIATION

OFX & CSV Statement Sync

Upload electronic bank statements and execute intelligent rule-based 1-click matching against general ledger cash records.

06 • FOUR-EYES GOVERNANCE

Approvals & Hard Close

Maker-checker verification queue and cryptographic period close locks preventing retroactive alterations during tax audits.

05 — FINANCIAL GOVERNANCE

Accounting with Built-In Internal Controls

FOUR-EYES WORKFLOW

Segregation of Duties

Junior accountants draft vouchers, but cannot post directly to the ledger. Senior Reviewers or CFOs verify and approve or reject with mandatory reasons.

- Accountant prepares draft voucher
- Reviewer inspects line narrations
- Approved: Immutable ledger posting
- Rejected: Reason logged for revision

PERIOD CLOSE LOCKING

Tamper-Proof Ledger Freeze

Prevents accidental or unauthorized retroactive modifications to accounting records once closed. Once a period is locked, all backdated entries are strictly rejected.

- Monthly & quarterly close checklists
- Hard database-level entry block
- Cryptographic sign-off stamp
- Complies with statutory tax audits

CONTROLLED REOPENING

Audited Administrative Access

In statutory audit scenarios requiring adjustments, only authorized Administrators can reopen a closed period, requiring mandatory justification notes and audit logs.

- Admin-only permission barrier
- Mandatory justification reason
- Immutable audit log generated
- Signed reversing entry workflow

🛡️ **Built for high-integrity enterprises preparing for statutory GST filings, bank loans, and external audits.**

06 — VALUE & CAPABILITY

From Bookkeeping to Enterprise Financial Control

Platform Capability	RicozBooks Status	Architectural Implementation
Multi-Entity Management	✓ BUILT & LIVE	Central organization umbrella managing isolated subsidiaries, base currencies (INR/USD/EUR/GBP), and FX.
Double-Entry Foundation	✓ BUILT & LIVE	Debit-equals-credit invariant validated at DB level; impossible to commit unbalanced journals.
Four-Eyes Approval Governance	✓ BUILT & LIVE	Maker-checker verification decoupling draft entry preparation from ledger posting with mandatory notes.
Commercial Sales & Procurement	✓ BUILT & LIVE	Complete lifecycle: Estimates → Orders → Invoices → Credit Notes; POs → Bills → Debit Notes.
Indian GST & E-Invoicing Suite	✓ BUILT & LIVE	Automated GSTR-1 & 3B return schedules, intra/inter-state tax splitting, and Input Tax Credit (ITC) checks.
Perpetual Stock Valuation	✓ BUILT & LIVE	FIFO & Weighted Average costing, reorder level alerts, and automated COGS ledger bookings.
Developer API & Webhooks	✓ BUILT & LIVE	RESTful API with OpenAPI/Swagger, Bearer authentication, and event webhooks for payment gateways.

07 — TECHNOLOGY ARCHITECTURE

RicozBooks — Full-Stack Cloud Architecture

🔒 SECURITY & GOVERNANCE BAND: JWT Auth • RBAC Permissions • Multi-Tenant Isolation • Period Close Lock • Cryptographic Audit Trails

LAYER 01

Client Experience

React 18 + Tailwind

- Fast SPA interface
- Interactive live workbench
- Maker-checker approvals UI
- Mobile responsive drawer
- Client-side CSV/PDF exports

LAYER 02

REST API Engine

Python 3.14 + FastAPI

- Asynchronous routing
- Swagger / OpenAPI schema
- Bearer token authentication
- Granular RBAC dependencies
- Real-time event webhooks

LAYER 03

Financial Logic

SQLAlchemy + Rules

- Strict Debit = Credit validation
- FIFO inventory & COGS rules
- Indian GST tax computation
- Multi-currency FX revaluation
- Hard period lock enforcement

LAYER 04

Database Storage

PostgreSQL Relational

- Multi-tenant schema scoping
- Foreign key constraint checks
- ACID transactional security
- Continuous cloud backups
- Immutable audit event log

08 — TARGET MARKET

Serving India's Booming SME Economy

MARKET INFLECTION

India's Large & Growing SME Ecosystem

Indian enterprises are actively transitioning from offline legacy desktop tools to modern cloud platforms to satisfy compliance mandates, manage multi-branch operations, and collaborate remotely.

> **Geographic Horizon: India anchor market → Expansion into APAC → Global cross-border SMB finance.**

CUSTOMER SEGMENTS

High-LTV Commercial Segments

Trading & Distribution Businesses:
Multi-warehouse inventory, high transaction counts, complex intra/inter-state GST rules.

Professional Services & Tech Agencies:
Multi-currency client contracts (USD/INR), recurring invoicing, and project profitability tracking.

Chartered Accountant (CA) Firms (Our Multiplier):
One CA firm manages 20 to 100+ client SME entities on RicozBooks with unified review dashboards.

09 — BUSINESS MODEL

Predictable B2B SaaS Subscription Model

STARTER

₹ 999 / mo

For single-entity small businesses needing core double-entry bookkeeping.

- 1 Legal Business Entity
- Single-user access
- Standard Chart of Accounts
- Basic Invoicing & Expenses
- Trial Balance & Balance Sheet

MOST POPULAR • PROFESSIONAL

₹ 2,499 / mo

For growing businesses requiring multi-user controls and GST compliance.

- Up to 3 Legal Entities
- Up to 5 Users with RBAC
- Four-Eyes Approval Workflow
- Indian GST Suite (GSTR-1, 3B)
- FIFO Inventory & COGS Sync
- Bank Statement Reconciliation

ENTERPRISE

₹ 5,999 / mo

For multi-entity corporations needing complete governance and custom APIs.

- Unlimited Legal Entities
- Unlimited Users & Custom Roles
- Hard Fiscal Period Close Locks
- Multi-Currency FX Revaluation
- Developer API & Webhooks
- Dedicated CA Advisory SLA

Expansion Revenue: Additional entity packs, custom webhook throughput, CA firm enterprise seat bundles, and automated bank feed subscriptions.

10 — GO-TO-MARKET PLAN

How RicozBooks Will Scale Customer Acquisition

ZERO CAC MULTIPLIER

1. CA Partnerships

Partnering with Chartered Accountants who mandate RicozBooks to their clients to streamline review workflows.

TARGETED OUTREACH

2. Direct SME Sales

Targeting multi-entity and trading businesses through LinkedIn outreach, CFO roundtables, and localized demonstrations.

VIRAL PRODUCT LOOP

3. Inbound Invoicing

Every invoice, estimate, and PO sent generates counterparty brand discovery with 'Powered by RicozBooks' links.

SEARCH ENGINE MOAT

4. Digital Content

High-intent organic content around Indian GST compliance, GSTR-1 preparation, period close governance, and Tally alternatives.

CONVERSION FUNNEL

1. Target Lead → 2. Interactive Live Sandbox → 3. 14-Day Full Access Trial → 4. Team Onboarding → 5. Paid Annual Subscription

11 — PRODUCT SCOPE & READINESS

Proven Engineering Execution — 22 Modules Live

CORE PLATFORM: FULLY BUILT & DEPLOYED (100%)

- **Authentication & Security:** JWT tokens, bcrypt, RBAC matrix
- **Multi-Entity Engine:** Isolated subsidiary ledgers & FX rates
- **General Ledger:** Balanced vouchers, line narrations (Δ = ₹0.00)
- **Sales Operations:** Estimates → Orders → Invoices → Credit Notes
- **Procurement Hub:** Purchase Orders → Bills → Debit Notes
- **Indian GST Suite:** GSTR-1, GSTR-3B, B2B/B2C, and ITC reconciliation
- **Perpetual Inventory:** FIFO stock ledger & automated COGS
- **Banking & Reconciliation:** OFX/CSV import & 1-click matching
- **Four-Eyes Governance:** Maker-checker queue & period lock

ACTIVE HORIZON: AI INTELLIGENCE & ECOSYSTEM (Q3-Q4)

- **AI Financial Assistant:** Natural language queries on ledger balances
- **Bank Feed Categorization:** Machine learning classification rules
- **Financial Anomaly Detection:** Automated alerts on unusual entries
- **Direct Bank Settlement APIs:** ICICI / HDFC / Razorpay integration
- **Automated E-Way Bill Sync:** Direct GSTN portal filing bridge
- **Payroll Automation Module:** Salary disbursements with TDS & PF
- **Native Mobile Companion:** Receipt OCR scanning & approval mobile app

12 — PRODUCT ROADMAP

From Precision Accounting to Financial Intelligence

COMPLETED

Phase 1: Foundation

- ✓ Double-entry core
- ✓ Multi-entity scoping
- ✓ Hierarchical COA
- ✓ JWT & RBAC security

COMPLETED

Phase 2: Operations

- ✓ Quotes to Tax Invoices
- ✓ POs to Vendor Bills
- ✓ Bank OFX/CSV recon
- ✓ Full P&L & Balance Sheet

COMPLETED

Phase 3: GST & Controls

- ✓ Indian GST (GSTR-1/3B)
- ✓ FIFO Inventory & COGS
- ✓ Four-Eyes maker-checker
- ✓ Hard period close locks

CURRENT FRONTIER

Phase 4: AI & Sync

- → AI Ledger Assistant
- → Bank feed auto-tagging
- → Cash flow predictive insights
- → GSTN Direct API bridge

13 — LEADERSHIP & TEAM

The Team Behind RicozBooks

PRODUCT & VISION LEAD

Founder & Architect

Responsible for overall platform roadmap, financial workflow architecture, and customer problem validation with growing multi-entity businesses.

- Product design & market positioning
- Double-entry workflow architecture
- Customer discovery & execution

ENGINEERING & SECURITY

Technical Architecture

Leading core FastAPI backend development, PostgreSQL transaction integrity, double-entry mathematical invariants, and React frontend systems.

- Distributed systems architecture
- Double-entry database verification
- Security, encryption & JWT controls

OPERATIONS & ECOSYSTEM

CA Advisory & Compliance

Guiding Indian statutory accounting compliance, period locking specifications, Four-Eyes approval logic, and accounting firm partnerships.

- Chartered Accountant network
- Statutory audit workflow validation
- GST filing schema precision

👥 **Core team dedicated to building high-integrity financial operating systems for growing companies.**

14 — INVESTMENT OPPORTUNITY

Accelerating Commercial Growth in Indian Enterprise Tech

CAPITAL ALLOCATION

Seed Round Investment

Allocation of Funds:

- **40% — Sales & GTM:** Direct SME acquisition & CA firm partnerships
- **30% — Product & AI:** ML bank classification, anomaly detection
- **20% — Cloud & Security:** 99.99% SLA & GSTN Direct API certification
- **10% — Operations:** Legal, compliance & customer onboarding

KEY STRATEGIC OBJECTIVES

18–24 Month Targets

- ✓ Acquire initial cohort of **500+ paying SME entities** across India
- ✓ Establish **₹1.5 Cr+ in Annual Recurring Revenue (ARR)**
- ✓ Onboard **50+ CA firms** managing multi-tenant client portfolios
- ✓ Launch AI-driven Automated Bookkeeping & Bank Feeds
- ✓ Maintain **99.99% Cloud Service Level Agreement (SLA)**

RICOZ INNOVATION • RICOZBOOKS CLOUD

RicozBooks

Accounting. Control. Intelligence.

Building the next generation of financial operations for growing businesses.
